Blanchard Donates Heisman Trophy

Doc Blanchard '42 made a generous gift when he donated to St. Stanislaus the Heisman Trophy he won in 1945 while playing football at the United States Military Academy. The Heisman Trophy is awarded annually to the outstanding college football player in the United States. Doc also donated to SSC the Sullivan Award (nation's outstanding amateur athlete in 1945) and the Maxwell Award (America's outstanding football player in 1945). These trophies will be on permanent display at SSC.

Doc was an All Gulf Coast Conference player at SSC and a three time All-American at Army. He retired in 1971 as a colonel after serving twenty-five years in the Air Force, and he is presently living in San Antonio, Texas. He was inducted into the SSC Hall of Fame in 1972.

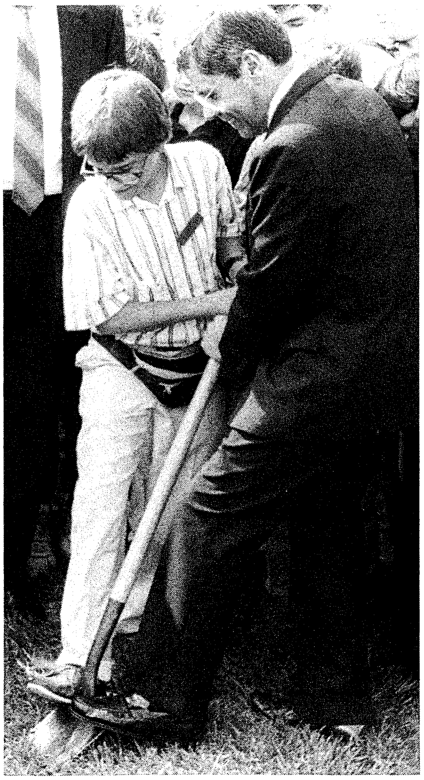
SSC Starts New Construction

Groundbreaking ceremonies took place on October 4 for the "new addition" to St. Stanislaus which will include seven classrooms, a computer lab, and a guidance area. The construction will take place to the front of the present building and is scheduled for completion on May 15, 1991. The complete addition will be built at a cost of $775,000.

The architect is George Saunders, who was the architect of the present school building in 1971. The engineer is Bill Fleming with Morphy, Makofsky, Mumphrey and Masson; and the construction firm is Brice Construction Company.

The entire St. Stanislaus student body and faculty were present for the groundbreaking ceremonies. Brother Paul Montero, SSC president, commented as follows: "The main purpose in adding classrooms to our campus is to allow greater flexibility in scheduling and to reduce the number of students in each class by expanding from three sections per grade level to four sections. This will simultaneously allow us to accept more day students into the school, thereby contributing to our commitment to make quality Catholic education available to as many of our area families as possible."

Construction of the new addition at St. Stanislaus is well underway with completion set for May, 1991.



SSC President Brother Paul Montero (at right) shares groundbreaking chores with seventh grader Charles Johnson, who is the son of Mr. and Mrs. Arthur Johnson of Bay St. Louis.

Alumni Reunion Set For January 26

The SSC General Alumni Reunion will be held on Saturday, January 26 at the Jefferson-Orleans in Metairie from 7:30-11:30 p.m. A pre-registration form will be sent to all alumni at the beginning of January. If you wish to stay overnight in the area of the Jefferson-Orleans, we have made arrangements with the Landmark Hotel on Severn Avenue to reserve a limited number of rooms. You may call them directly at 800-535-8840 (outside Louisiana) and 800-321-4975 (inside Louisiana). Be sure to request the special rates for the St. Stanislaus Alumni Association.

Representatives of the honor classes ('51, '61, '66, '71 and '81) are already "hard at work" contacting their classmates to encourage 100% attendance. But, of course, alumni of all years are encouraged to attend what has become our "biggest function of the year."

Brother Pat McGinity

Brother Pat, a native of Bay St. Louis, entered St. Stanislaus in the fourth grade. He graduated from SSC in 1964 and entered the Brothers of the Sacred Heart. Upon completion of his bachelor's degree in history at Spring Hill College in 1969, he began teaching at Bishop Dunne High School in Dallas. He later taught at McGill High School in Mobile; and he was awarded a master's degree in history from Notre Dame University in 1977. He has also taught at Catholic High School in Baton Rouge and Vandebilt Catholic High School in Houma before coming to St. Stanislaus in 1990.

As a brother of the Sacred Heart, Brother Pat has had the unique experience of teaching in England for three years. The Brothers of the New England Province have a district in England, and they staff St. Columba's College with thirteen Brothers. St. Columba's, a secondary school for boys, is located in St. Albans, England.

In commenting on his experiences while in England, Brother Pat found the students very serious in their approach to academics as there exists a greater competition among students to enter the universities—and the universities are able to accept only the better students. Athletics, though participated in by many students, is not emphasized as much as in the United States.

Brother Pat, the son of Mr. and Mrs. Patrick McGinity of Bay St. Louis, is happy to be "home again at SSC." He teaches world history and religion; and he coaches the cross-country team as he has done during the past twenty years. This year the St. Stanislaus cross-country team finished second in the state. Stanislaus is "home" for the McGinity's as Brother Pat's two brothers are SSC grads—Michael in 1967 and Terry in 1975.

SSC Alumni Golf Tournament

The SSC Alumni Association will sponsor its third annual invitational golf tournament on Friday, April 26 for alumni and friends of St. Stanislaus. This "scramble tournament" will be held at the Diamondhead Golf and Country Club (just north of Bay St. Louis). As there has been a capacity enrollment the past two years, registration will be limited and will be on a "first come" basis. Further information may be obtained by contacting Brother Aquin at the SSC Alumni Office (601-466-3401).

This year's special guest will be Archie Manning. Former special guests—Doc Blanchard and Jim Henderson—will also be present for the tournament.

Annual Alumni Fund

Letters regarding the annual alumni fund were sent out to all alumni during the month of November. The proceeds of this year's drive will be used for the cost of the new addition presently being added to the school. The cost of this new addition is $775,000. This annual fund has always been successful, and it proves the outstanding support that SSC provide their school. If you have not responded to your letter, please use this as a reminder.

SSC Annual Reunion Is Great Success

Over three hundred and fifty people attended the annual alumni reunion held on January 26 at the Jefferson-Orleans in New Orleans. Leading the celebration were members from the honor classes of 1941, 1951, 1961, 1966, 1977 and 1981. Particular recognition was given to the class of 1941 as Jimmy Bryan, Louis Perez, Tony Vizard, James Brown, Tom Martin, Jules Brown, Bob Gibbens, Jim McConnell and Tony Piazza gathered to begin preparing for their 50th anniversary celebration to be held at SSC on May 25, 1991.

The password for the evening was "I Stand For Saint Stanislaus." Irv Cuevas '61 from Seal Beach, California was recognized for coming the farthest to celebrate the reunion. SSC Soccer Team Has Great Year

The Rock-A-Chaw soccer team made it to the Final Four of the state soccer tournament and won their first Division Eight title this season. In recording a 17-6-3 record the Rocks defeated strong teams at Long Beach, Gulfport, and Harrison Central. They scored a major upset in defeating Clinton in the quarterfinals. Clinton was undefeated in 30 games and had won the state championship last year - and was heavily favored to win the championship again. The Rocks lost in the state semifinals to the eventual state champion Forest Hill.

The SSC soccer coach is Tim Burns, son of Wally Burns '47. With only four seniors on this year's squad, the Rocks are already looking forward to strong teams in the future.

SSC Enrollment

St. Stanislaus over the years has continued to be very fortunate in the number of students enrolled. In both the day student and the boarding departments the enrollment remains at near capacity - and often there is a "waiting list." However, we still look to our alumni, parents, and friends to be our "best advertisers" in attracting new students. In other words, if you are aware of a young man who could benefit by being at St. Stanislaus, please contact either Mick Quinlan or Brother Aquin at 601-467-9057.

Jimmy Bryan '41 was named "1992 Louisiana Dealer-of-the Year" by the Louisiana Automobile Dealers Association. Bryan is the president of Bryan Chevrolet-Mitsubishi-GEO, Inc. in Metairie.

Lay Faculty Role at SSC

Since the founding of St. Stanislaus in 1854, the Brothers of the Sacred Heart have played a very significant role in the history of the school - and this is still true today! However with the fewer available Brothers over the past ten years, the role of the lay faculty has become very significant in the operation of St. Stanislaus. The dedicated work of the lay men and women on the faculty and staff is evident in the continuing programs of excellence in both the athletic and academic fields. And this devoted service of the lay men and men will become even more necessary in the years to come.

Brother Paul Montero was named president of St. Stanislaus in 1991; and Dr. Michael Ryan '68 became the first lay principal in the school's history. Ryan had served for the previous five years as academic assistant principal. Assisting him in the operation of the school are Mick Quinlan (director of admissions), Pat Modenbach (director of public relations), Jerry Spell (director of student activities and athletics), Andy Kivlan (director of guidance), Fred Cherota (curriculum coordinator), J.B. Pike (campus minister), and Susan Estrade (supervisor of instruction).

Lay faculty members for the present school session include Tom Ackerman, Mary Jo Barr, Madeleine Breeden, Eddie Burgo, Tim Burns, David Bush, Robert Carey, Catchie Choina, Dee Cichon, Will Clingon, Carolyn Cromwell, Walter Damiens, Mary Dillenkoffer, Bill Franklin, Mike Gemelli '69, Chuck Genin '75, Joe Gex '88, Virginia Gex, Bill Jennings, Ann Kortman, Myron Labat, Jay Ladner, Marty Latino, Ken Lyons, Robert Moore, Ken Priest, Rory Rafferty '73, Cherie Ramsey, Larry Ramsey, John Ross, Rudy Rowell, Jeannie Ryan, Pat Sanguinetti, Jan Scardino, David Schommer, Susan Smith, Leslie Thornton, Jim Thriffiley, and Evelyn Timidaiski.

Laymen working in the residency program include Paul Calamari, Ken Kenney, Dave Uecker, Joe Gex '88, Marty Latino, Robert Moore, John Ross, David Schommer and Michael Thomas.

The brothers still maintain a significant presence in the operation of St. Stanislaus. In addition to Brother Paul Montero, who serves as SSC president, other Brothers who work directly in the operation of the school and the boarding department include Brother Joseph Donovan (dean of students), Brother Aquin Gauthier (director of development and alumni relations), Brother Lee Barker (director of resident students), Brother Robert LeBlanc (director fo buildings and grounds), Brother Pierre St. Pierre (director of food services), Brother Alan Drain, Brother Albert Ledet, Brother Eduardo Baldioceda, Brother James Burns, Brother John Hotstream '55, Brother Leon Stock, Brother Loyola Mattingly, Brother Marcel Riviere, Brother Neri Falgout, Brother Noel Lemmon, Brother Philip Lewis, Brother Ramon Daunis '47 and Brother Raymond Sylve.

St. Stanislaus will celebrate its 140th anniversary in 1994; and through the continuted efforts of the Brothers of the Sacred Heart and the devoted lay men and women at SSC, the school will continue to prosper as it has since its founding in 1854.

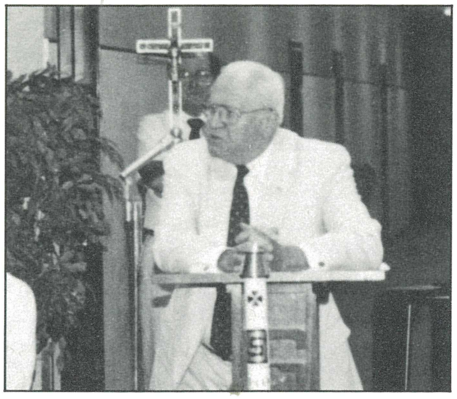
Alumni Participate in the Opening of School Liturgy

For the beginning of the 140th session of St. Stanislaus, the Key Club, moderated by Brother John Hotstream, '55, called alumni to be present for the first mass of this anniversary year. Mr. Ed Carrere, '39; Mr. Joe Monti, '71; Mansel Bell, '93; and Rev. James Morrison, '79, were present for the Mass of the Holy Spirit on August 20, 1993. Father Jim, who is pastor of Annunciata Parish in Houma, Louisiana, celebrated the liturgy for the students. Ed, Joe, and Mansel reflected on the impact of St. Stanislaus on their lives.



Mr. Ed Carrere, '39, spoke to the students during the Mass of the Holy Spirit. Ed's great uncle, John Claverie, was in the first graduation class of 1871. Other relatives are August Claverie 1877, Cyril Claverie '17, Louis Claverie '21, William Carrere '68, and James L. Carrere '76.

Alumni Association President, Christenberry, Honored

Earle Christenberry, '45, received the Medallion of Honor, which is the highest award bestowed by the International Brotherhood of Magicians. His picture was on the cover of the August 1993 edition of *The Linking Ring.*

> *''He's the perfect example of a volunteer...''*

A quote from the publication states, ''Conferred to Christenberry during the 1993 annual convention, the award recognizes outstanding service and contribution for the betterment of the I.B.M. 'He's the perfect example of a volunteer,' says William Wells, who nominated Christenberry for the award.''

''Earle was the original founder of the Louisiana Magic Weekend... and now, the annual May convention boasts 250 to 300 registrants.'' (reprinted with permission from *The Linking Ring,* official publication for the International Brotherhood of Magicians, Volume 73, No. 8, August 1993.)

Congratulations, Earle. You have worked magic with the SSC Alumni Association as well. Bobby Christenberry, '98, who is Earle's grandson, continues the tradition. He is the current president of the St. Stanislaus Magic Club.

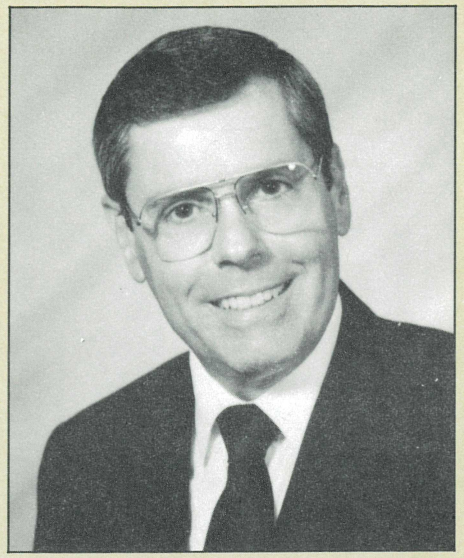
Message from the President



Brother Montero

There probably won't be a massive cake with 140 candles on it; but St. Stanislaus will nonetheless be celebrating its birthday throughout this school year in some very exciting ways. And we hope you'll be as much a part of the activities as possible!

Yes, this school year marks the 140th anniversary of service to young people by the Brothers of the Sacred Heart and the dedicated women and men who have shared in our mission here in Bay St. Louis.

For over seven generations, the formation and education offered by St. Stanislaus have helped shape the lives and futures of thousands of young men, not only from the Bay St. Louis area but from throughout the United States and dozens of foreign countries.

In an age and culture where ''disposable,'' ''throw-away,'' and ''recyclable'' are everyday concepts and where commitment, fidelity, and permanence are nearly ''endangered species,'' any institution which has endured for 140 years is worthy of celebration.

However, your Alma Mater has done much, much more than merely endure. Throughout her history, St. Stanislaus has excelled in religious and spiritual formation, in academics, and in co-curriculars. And today our faculty, staff, and student body are as committed to excellence in those areas as were the thousands who preceded them.

The enthusiasm generated among faculty and students regarding the projected ten-year archaeological dig (described elsewhere in this newsletter)clearly testifies to this. So, we truly have cause to celebrate!

Throughout this school year, you'll be hearing about various activities and projects in conjunction with our anniversary. I hope that you will participate as fully as possible in those which will involve our alumni. You are a valued part of our rich and proud tradition. Please continue to be a part of St. Stanislaus and to allow us to be a part of you!

Sincerely in the Sacred Heart,
Brother Paul Montero, S.C.
President, St. Stanislaus College

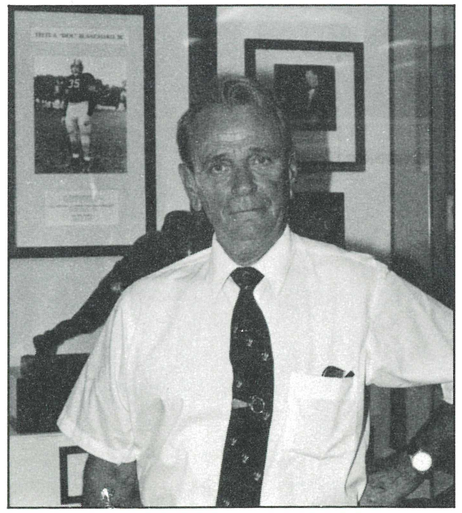
''Heisman Winner Leads Group of Six Into Hall. . .''

So read the headline of the Jackson, Mississippi paper, *The Clarion-Ledger*, on October 12, to announce that St. Stanislaus' own Doc Blanchard will lead six former athletes into the Mississippi Sports Hall of Fame in May.

Blanchard is the only Mississippian to receive football's most prestigious award. Doc donated his Hiesman Trophy and his Maxwell and Sullivan Awards to St. Stanislaus where they are proudly displayed in the Resource Center.

Visitors stop by, asking to be photographed next to a Heisman Trophy, and daily St. Stanislaus students admire Doc's trophies dreaming of their own successes. You are with us, Doc.

The tradition lives!



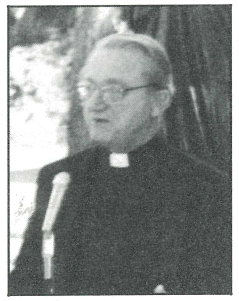
Don Schulingkamp, '48, posed in front of the display of Doc Blanchard's awards when he visited SSC in July. Don received boxing awards while at SSC. He still has four boxing rings on Magazine Street in New Orleans.

Kick-Off Event

The dedication of the Diboll Heritage Plaza, a gift of the Collins Cerre' Diboll Private Foundation, took place on September 30, 1993, which also was Foundation Day of the Brothers of the Sacred Heart. The plaza contains the cornerstone from the 1904 building which was destroyed by hurricane Camille in 1969, and a statue of the Sacred Heart that was in the scholasticate of the Brothers in Mobile, Alabama. This ceremony began the official celebration for the 140th Anniversary.

Mr. Donald Diboll, trustee of the Collins Cerre' Diboll Private Foundation, speaks during the dedication.

Alumni involved in the construction of the plaza were Mr. Carl Heitzmann, '66, contractor for the plaza; Mr. J. E. Loicano. '60, who with Hancock Monument Company furnished the granite benches. Mr. Fred Wagner designed the plaza as his gift to the project.



Rev. James Carter, S.J., '44, president of Loyola University of New Orleans, (pictured) and Rev. Peter Mockler, pastor of Our Lady of the Gulf Church, blessed the plaza.

Jeep Mestayer, secretary of the Student Council, placed a wreath at the base of Sacred Heart statue in remembrance of the alumni, faculty, parents and students who brought St. Stanislaus to this anniversary year.

Markers of Environmental and Historical Importance on Campus

Ten sites of historical and environmental significance will be dedicated throughout the year. The Brothers, faculty, and students have been for these 140 years excellent caretakers of this prime property. Their dedication to the environmental significance of the St. Stanislaus campus, years before this was in the public's awareness, has guarded the land. The public acknowledgement of our historic institution will be furthered by placing markers at points on the 25 acres that not only teach about the environmental significance of the property, but also commemorate sites of historical significance for St. Stanislaus.

The selected sites are:

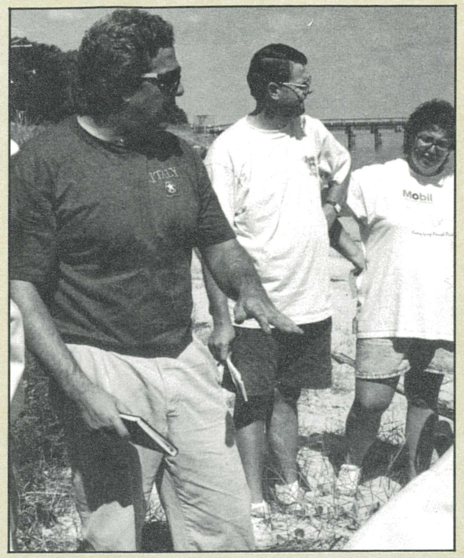
1. **The pier**-to recall the various designs of the pier, to recall the young men who during World War II logged hours as observers.
2. **The marsh area beside the pier**-to teach about the wave action on the beach, to teach about the animal life in the marsh area, and to teach about marine life.
3. **The old chapel**-to teach the history of the old chapel constructed in 1929 which is now the school's chapel, and to preserve in memory the ''old St. Stanislaus'' that many remember as such holy ground.
4. **The old gym**-to teach the history of the old gym as part of the ''old SSC,'' to teach of the various uses of this building, and to teach about the old hotel that was on this site but not part of SSC.
5. **The main school building**-to teach about the various main school buildings through the 140 years.
6. **The Zip Tree**-to teach about the micro-ecosystems that inhabit this Live oak, to remember the many students who formed Zip Lines for their afternoon snacks.
7. **Br. Aurelian's House**-to teach about Br. Aurelian, a self-sufficient Brother who constructed his own cottage, tended his grape arbor for his own wine cellar beneath his cottage. Was Br. Aurelian SSC's version of Henry David Thoreau?
8. **The Back School**-to remember the extension of the Brothers' mission to reach out to others; to remember the many leaders of the Bay/Waveland area who were educated at Rip's University.
9. **The Brothers' Cemetery**-to note this holy ground in remembrance of the great men of Southern Province of the Brothers of the Sacred Heart, to teach about the Rock-A-Chaw-that indigenous pesky plant that SSC has elevated to a place of honor and respect-which grows along the fence of the Brothers' Cemetery.
10. **The fooball stadium and athletic complex**-to remember the many who built the brick wall by hand, to remember the baseball stadium of the glory days, to remember the contribution of the Sidelines Club; to date the present structures.

These markers will be an outside walking tour of the St. Stanislaus campus. The school is an important part of the history of Bay St. Louis, whose Historical Society has 250 members, and an important part of the Mississippi Gulf Coast as the oldest educational institution of the Coast and the oldest continuously operating business on the Coast. This walking tour will be available to visitors and friends of SSC.

The Sesqui Project

September 30, 1993, was the formal beginning of the Sesqui Project. The scope of the project is the next ten years from the 140th anniversary to the 150th anniversary, which is the sesqui-centennial for SSC. The project's direction furthers our reach for effective, sound, and meaningful education. The project's focus is using achaeology to integrate the curriculum and to produce more hands-on education, thus contributing to educational reform. The projects' initiators are the instructors, and they will determine how the students, through the specific disciplines, can effectively participate in this study of the St. Stanislaus campus.

Dr. Marco Giardino, PhD., has offered to mentor SSC through this project. He holds a doctorate in archaeology from Tulane University and is presently the Total Quality Management Officer at NASA. As mentor he has contributed through NASA 31 hours for planning and training. He loaned our Kleinpeter-Gibbens Memorial Library 60 volumes from his personal library for faculty and student research. He procurred from NASA an infrared satellite photograph of the Bay area. On October 2, 1993, he held the first Teacher Training Day. In attendance were 15 faculty members and 5 adults who were interested. Marco discussed basic principles of archaeology and conducted two hours of field work.



Instructors, who will integrate archaeology into the curriculum, recently practiced their skills on October 2nd during the first adult training exercise. Marco (left), Mike and Rene Hamm (center) are shown.

Anniversary Mass

On April 22, 1994, Earth Day, St. Stanislaus will have the 140th Anniversary Mass at 1:30 p.m. This liturgy will include alumni, friends, parents, and students of St. Stanislaus. Everyone is encouraged to attend and to remain on campus for a reception. Watch for more information.

The SSC Foundation Room

St. Stanislaus' historical information and memorabilia are being organized in ''The Foundation Room.'' This will facilitate awareness, research and interest. Immediate help is needed to start organizing and cataloging the material. Br. Aquin Gauthier kept and compiled excellent records of SSC. One of his dreams was to have a place where alumni and students could research areas of interest pertaining to SSC. Because of his foresight, we are able to begin this project. If you have items you would like to donate to the SSC archives (no item is insignificant!) or have time to contribute to the project, contact the Development Office at (601) 466-3401 or FAX (601) 466-2972.

The Rock-A-Chaw Booster Clubs

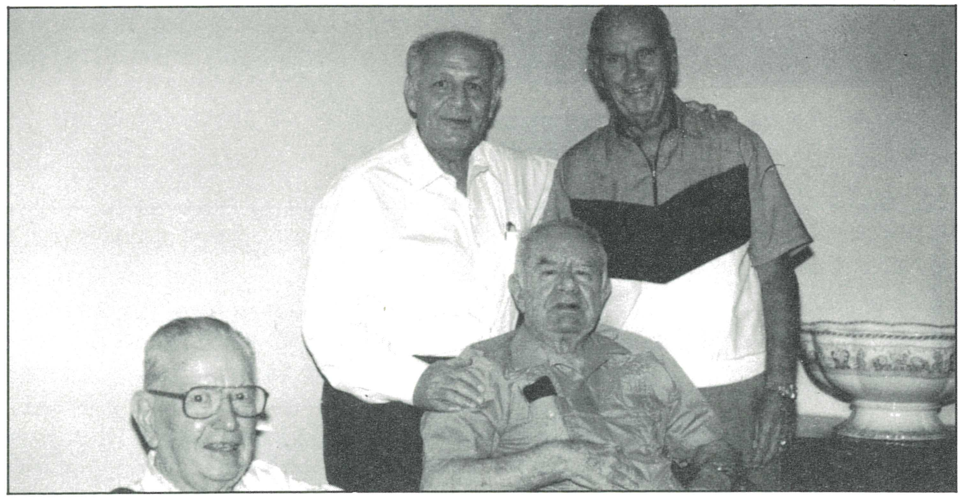
Booster clubs for each of the 11 sports are new this year. Membership in each club is $5. Did you ''hut the ball'' or catch behind the plate and would like to contribute to the spirit of athletics at SSC? You may join by sending $5 to SSC in care of the named sport(s).

The Gridiron Club is sponsoring a 50/50 Raffle at each home game.

The Diamond Club has rebuilt a batting cage. They are asking for sign sponsors for the outfield fence.

The 19th Hole Golf Boosters will hold a raffle for a set of 30 year old Ben Hogan Speed Slot 1, 2, 3, 4 Woods (Persimmon head) completely refinished. The drawing will be held December 7th at half-time of SSC vs D'Iberville basketball game. Tickets will be $1 per chance. Any alumni sending $5 will receive 5 chances and also membership in the SSC Golf Booster Club. Send to **Coach Chuck Genin, '75** at SSC, P.O. Box 8001, Bay St. Louis, MS 39521-8001.

Has this anniversary year rekindled memories of your years at SSC? The SSC newspaper requests Letters To The Editor from alumni. Direct letters in care of Mr. Will Clingon, advisor.



The class of 1933 organized a special reunion meeting in June to commemorate their 60th year of graduation from St. Stanislaus. Present were J.C. Roland, Curtis Matherne (seated left to right) and Dominic Alaimo, and Hon. Ed Stoulig (standing left to right).

Grants From the Alumni Association

The Alumni Association has made four grants to various projects at St. Stanislaus.

- For the purchasing of 10 additional red blazers to supplement the 25 blazers purchased two years ago with a grant from the Alumni Association. The 10 new blazers will be in smaller sizes. Students wear the blazers when ushering or hosting special events on behalf of SSC.

- $1,500 for the Classroom Prayerbook Project. The funds will be used for secretarial and clerical assistance, materials and printing costs. The prayerbook is now the property of SSC. It is used every day in every classroom. The intent is to ready this prayerbook for publication for a national market.

- $100 to Ashton Feehan, '94, to assist with his expenses when he represents Mississippi as a Congressional Scholar at the National Young Leaders Conference to be held in January, in Washington, D.C. Ashton is the first SSC student to be selected. He is using his money from working at Camp Stanislaus to purchase his airline ticket. He has garnered over $700 in additional support from various groups.

- $1,000 to assist with the initial stages of the Sesqui Project. This is the ten-year project which will culminate in the 150th anniversary of SSC.

Brother Paul Montero Elected Provincial

The Brothers of the Sacred Heart elected Brother Paul Montero to a three-year term as provincial of the New Orleans Province effective August 15, 1994, to replace Brother Bernard Couvillion at the conclusion of his six-year term.

After assuming office as provincial, Brother Paul's first responsibility will be to represent the New Orleans Province in Rome at the congregation's 32nd General Chapter, an international assembly of Brother-delegates from 28 countries. The General Chapter begins August 17, 1994.

Brother Paul has served in a variety of roles of Catholic school leadership during his 35 years as a Brother.

After serving as teacher, guidance counselor, and assistant principal at St. Aloysius in New Orleans, he was principal for two different tenures each at E.D. White High School in Thibodaux, Louisiana, and at St. Stanislaus High School in Bay St. Louis.

In 1991, he assumed the full-time role as president of St. Stanislaus, where he has led a successful expansion and building campaign and is currently celebrating the school's 140th anniversary.

Besides his educational roles, the New Orleans province called upon him to serve as director of novices from 1977 to 1980 and as vocation director from 1980 to 1982.

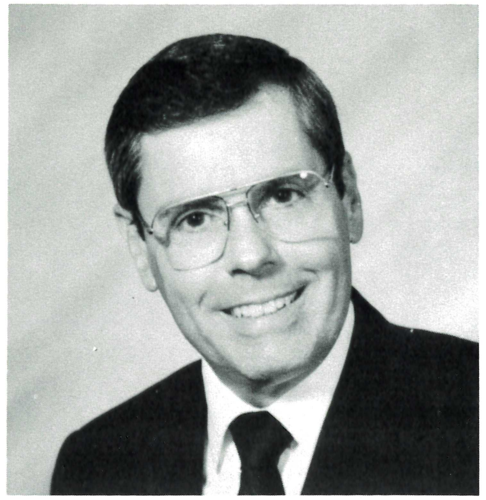
Brother Paul is the son of Anite Montero of Donaldsonville, Louisiana, and the late Odell P. Montero.

He took first vows in 1958 before attending Spring Hill College in Mobile, where he earned a B.S. degree in Spanish and Social Studies. From the University of Alabama he obtained an M.A. in guidance and counseling. He has done ongoing graduate work at Loyola University, New Orleans; Nicholls State University, Thibodaux, Louisiana; and Dominican College, New Orleans.

Message from the President

Dear Alumni,

"The mission of St. Stanislaus is to teach Gospel values and to assist in the development of each student's spiritual, moral, psychological, intellectual, and physical growth according to ... the charism of the Brothers of the Sacred Heart."



Brother Paul Montero, S.C.

This excerpt from the Mission Statement of St. Stanislaus commits all of us who care about SSC and its future to do whatever we can to further the growth of our students, both current and those to come.

By extension, this commitment likewise includes the continued improvement of all aspects of St. Stanislaus: its facilities, its personnel, its relationships with parents, alumni, benefactors, and the local business and professional community.

We need and want your involvement, your participation, your experience, and your expertise in this Strategic Planning Process.

To this end, a comprehensive process is underway here at your Alma Mater. A five-year Strategic Plan is the goal of this process. This Strategic Plan, when completed, will be formally adopted by the SSC Board of Directors and will serve as the catalyst for moving St. Stanislaus into the next century.

The questionnaire/survey included in this newsletter indicates the basic areas which form the content of the process. A brief description of each area is given, with space provided for your input.

I ask that you take time to reflect upon your own formation and education at St. Stanislaus. How well were you prepared for life after high school: college, work, military, marriage? Then, I ask that you reflect upon today's world and the world of tomorrow. What are our needs at SSC if we are to adequately prepare our future graduates for their world?

Whether in the area of religious formation, curriculum, personnel, facilities, or whatever, please offer your suggestions, recommendations, concerns, observations, and so forth.

Never before in our history have we sought input regarding our future to the extent that we are doing now. Faculty, staff, students, parents, business and professional persons, and now you, our alumni, are being asked to assist.

Won't you take time right now to consider and act upon this request? Your investment of time and effort is truly an investment in the future of St. Stanislaus.

St. Stanislaus currently is an outstanding school. You can help make it even better--for today's students and for those of the next millenium!

Sincerely in the Heart of Jesus,

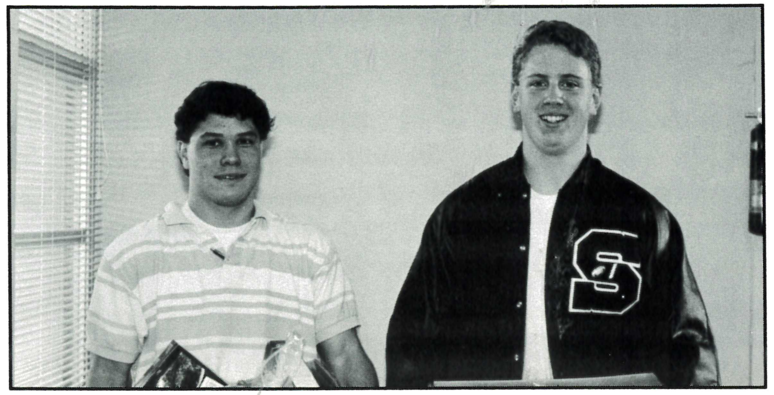
Brother Paul Montero, S.C.
President

P.S. On a different (but definitely related!) topic: many thanks to those of you who have already responded so generously to our Annual Alumni Appeal. If you have not yet sent in your gift, it's never too late!

I STAND FOR SAINT STANISLAUS

The last year of the Endowment for Excellence Campaign is here! In April alumni who have not as yet been contacted to pledge will be asked to help reach the 3 million dollar goal. The amount pledged is $2.2 million. Many generous alumni, parents, and friends of St. Stanislaus have enabled us to attain this amount. Thank you!

Social Justice: An Active Ministry for SSC Students



St. Stanislaus seniors, Kenny Monti (left) and Leo Seal delivered the food collected from their homeroom for a Thanksgiving basket.

During the fall semester, the students have been involved in various social justice projects. Mr. Phil Longmeyer, junior religion teacher at St. Stanislaus, organized a dinner depicting the distribution of wealth in the world and how this distribution then affects the food availability for the people of the world.

The 50 people who attended the dinner randomly chose to be in the First World, the Second World, or the Third World. Caeser salad and rib eye steak, the dinner for the seven guests of the First World, was served on fine dinner plates with crystal glasses. Chicken broth soup with onions and bread, the dinner for the six Second World guests, was served at a table with a bench. Rice only, the dinner for the thirty-seven guests of the Third World, was served to them as they squatted on the floor.

The Key Club sponsored a Halloween dance and a Christmas dance for the residents of the South Mississippi Regional Center which is a resident and day facility for people with disabilities.

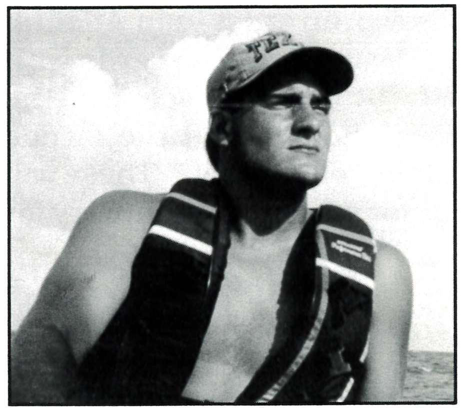
During November, the Student Council, directed by Mr. Bill Jennings, found each homeroom a family to adopt for Thanksgiving dinner. The students helped 35 families.

The Key Club sponsored a clothing drive for the Navajo Indians at St. Anne's Mission in Arizona. Brother John Hotstream, '55 and moderator of the Key Club, shipped a truck load of clothing to the mission.

Camp Stanislaus Counselor Reunion Set For Summer

Brother Noel announced a reunion of Camp Stanislaus Counselors is being planned for Sunday, July 24, 1994 at SSC. Following an opening Mass at 11:00 a.m., a picnic lunch will be provided by the camp board.

Brothers who have served at camp, former counselors, current camp teachers, and current camp counselors are invited to bring their families to the non-alcoholic picnic. Information will be mailed at the beginning of the summer.



Camp Counselor Chad Mathews '89 spent time boating with campers.

Annual Gourmet Dinner A Success

Brother Lee Barker (left) enjoyed dinner with Mr. and Mrs. Ruben Navarro from San Luis Potosi, whose son is a freshman, and Dr. and Mrs. Max Edrington (across the table) from Long Beach who have three sons, a '92 SSC alum, a sophomore, and a seventh grader at SSC. The annual gourmet dinner, "Une Nuit Magique Francaise," was held November 20. Mr. John "Chappy" and Starr Chapman donated the meal, its preparation, and the decorations to make the gala event possible. This year's dinner realized over $11,000 for the Endowment for Excellence Campaign.

The Rock-A-Chaw Boosters Clubs

The Band Boosters have commissioned Sarah Brown, an artist from Atlanta, to design two note cards with St. Stanislaus scenes: the Back School and the facade of the "old school." These will be for sale in mid-January for $10.00 a box.

Also, the Band Boosters are sponsoring "Smoke 'N Jazz," on SSC's front lawn. This will be an evening of bar-b-que and jazz on April 30 from 5 to 10 p.m.

The band was awarded an All Superior rating in all categories at the Southwest Mississippi Marching Festival in Tylertown in November. The drum line took top honors in that competition.

The Diamond Club polished up the baseball field: a new batting cage, an upgraded backstop, and the newly sodded infield. Space for outfield signs is available ($150 for first year sign).

Eight SSC alums (with the Pearl River Community College baseball team) helped the Diamond Club re-sod the baseball field. Alums participating: John Bishop '93, Adam Breerwood '92, Bryce Gex '93, Kevin Jacobi '91, Mickey Quinlan '92, Johnny Rutherford '92, Danny Strong '93, and Brad Wiggins '93.

The Sailors Club is hosting the High School National Championships, the Baker Cup Trophy, on May 21 and 22. The Bay/Waveland and Pass Christian Yacht Clubs will co-host the event. The Sailors Club needs at least two 420 class sailboats for this weekend. Contact Coach Rafferty if you would like to donate such boats.

Congratulations! Coach Rafferty has been appointed the director of the South East Interscholastic Sailing Association.

The Road Runners cheered the Cross Country Team to 2nd place in State Competition.

The Piranahas saw the varsity swim team place 4th in the State Competition. Donald Sherrill won two state titles.

$250,000 Life Insurance Gift Honors Deceased Sibling

Donald '77, Martin '79, Frank '80, and John '83 Tighe have remembered their brother Robert through a gift to SSC: a quarter of a million dollar life insurance policy.

"We all believe strongly that the greatest influence in our lives, with the exception of our parents, was the Brothers of the Sacred Heart and St. Stanislaus."

Br. Paul Montero, who knows each of the Tighe brothers, gratefully accepted this generous, farsighted gift.

140th Anniversary Mass

On Earth Day, April 22, 1994, at 1:30 p.m., the St. Stanislaus family will celebrate the Anniversary Mass in the Brother Peter Memorial Gym. Alumni, parents, friends, faculty, and students are invited. A reception in the Student Union will follow the Mass. Plan to celebrate with us to thank God for the service of the Brothers of the Sacred Heart and the dedication of the lay faculty and staff.

The Sesqui Project

Grants: Mobil Oil Company granted $300 for the Sesqui Project. This ten year archeological study of the St. Stanislaus campus is being accomplished through investigation and study by the teachers, students and interested community members. Mr. Mike Hamm, who participated in the first teacher training dig, is employed by Mobil Oil in Chalmette, Louisiana. He initiated the grant request for St. Stanislaus. Renee Hamm, Mike's wife, teaches English at SSC.

Mrs. Mary Jo Barr, junior high science teacher, received a $500 grant from the Mississippi Museum of Natural Science and the NNMS Foundation through grants from the Mississippi Wildlife Heritage Fund and National Project Wild Action Grant Program whose founding corporate sponsor is the Phillips Petroleum Foundation and the National Fish and Wildlife Foundation. Barr plans the grant money be used for development of an outdoor marsh area and for building a walkway to the area so the students can participate in outdoor science classes.

Mrs. Mary Jo Barr teaches her seventh grade science class to observe the inhabitants and the configuration of the marsh area.

Datum points set: Three sub-datum points were set on the front of the campus with elevations of 18.22, 18.06, and 15.36. These were shot from the ASC&GS, #T-190 (1955) Benchmark at the Merchants Bank near the school. Chris Carville, a junior from New Orleans, and Jason Brunsell, a junior from Pass Christian, assisted Mr. Al Genin, '60, and Dr. Marco Giardino, mentor for the project, with the final two hours of work. Mr. Mike Gemelli's ('69) pre-calculus class attended the initial classroom lecture.

Archives Room: Brother Eduardo Baldioceda supplied a computer for the archives room. Cataloging of the material has begun.

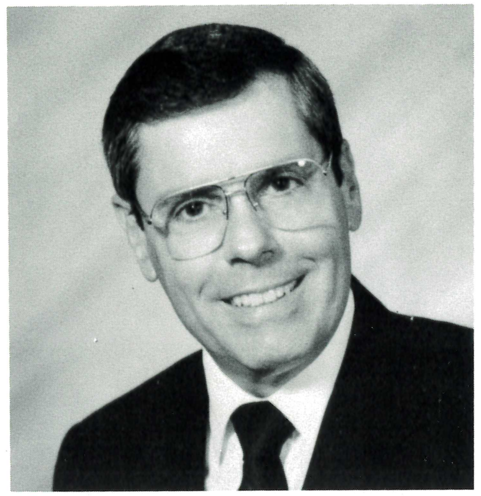
Message From the President



Brother Paul Montero, S.C.

Dear Alumni,

"If I had the money, I'd pay for every student there! I've never seen a school where every teacher is so finely attuned to each student." (Parent of a current student)

For some school administrators, calling on parents and alumni to request contributions may be a less-than-pleasant chore. But when you repeatedly hear statements similar to the one above, the "chore" becomes an exciting and energizing experience!

Here at St. Stanislaus we recently completed our Annual Parents Appeal, with wonderful results. Parents were generous, both in financial contributions and in their words of gratitude and praise for what your Alma Mater is doing for their sons.

During our Annual Alumni Appeal, held during the first semester, many of our grads attached a note of appreciation to their contributions check. They spoke with warmness of their good memories of Brothers and others who had touched their lives in special ways while here at Stanislaus.

Undoubtedly St. Stanislaus continues to play a major role in the lives of the young men who attend the "School of Character." It is both humbling and rewarding to be part of a formation and education process that touches hearts, challenges minds, strengthens character, and forges bonds of friendship that last a lifetime.

As an alumnus, you remain an integral part of that process. Your support through prayer, involvement, affirmation, and financial assistance, helps to keep us going. Be assured of our awareness of and appreciation for that much-needed support.

Our "Campaign for Excellence" is entering its final stage. During the month of April, telephone calls will be made to those graduates who have not yet had the opportunity to participate in the campaign, asking them to make a pledge.

A "Challenge Gift" of $100,000 has been pledged by a graduate who wishes to remain anonymous. **Thus, every dollar contributed during these final months of our campaign will be matched by this generous donor, up to $100,000.**

Additional donors are being sought so that the amount of this "Challenge" can be significantly increased. My hope is that many grads who have already made a gift to the campaign will pledge an additional amount so that their gifts can, in effect, be doubled.

Once again I thank those who have participated in the campaign. And I encourage all others to join us in our commitment to offer the best possible formation and education to future generations of young "Rock-a-Chaws."

Sincerely in the Lord of Love,

Brother Paul Montero, S.C.
President

I STAND FOR SAINT STANISLAUS

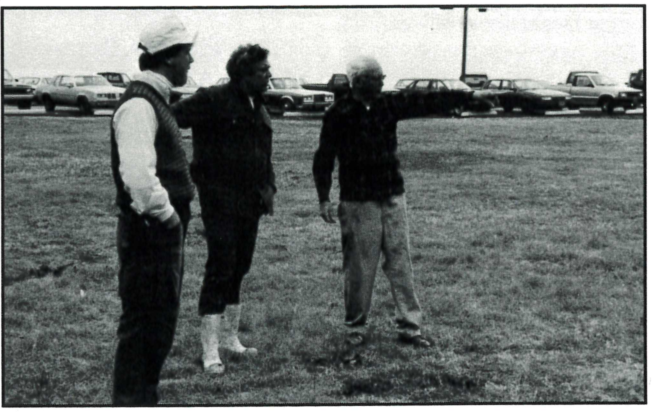
The last year of the Endowment for Excellence Campaign is here! A "Challenge Gift" of $100,000 has been pledged by a graduate who wishes to remain anonymous. In April alumni who have not as yet been contacted to pledge will be asked to help reach the 3 million dollar goal. Your generosity in completing this campaign will be doubled up to $100,000. Thank you for bringing us this far!

The Sesqui Project

FIELD WORK The sixth and seventh graders and the juniors of St. Stanislaus participated in a unit of lectures and field work on February 3, 1994, as a component of the Sesqui Project, a ten year archeological investigation of the campus.

Mr. Mark Geiger from the Naval Oceanographic Office spoke to the sixth and seventh graders on bio-luminescence and plankton, and Mrs. Jan Dubuisson showed slides of the birds that frequent the marshes of South Mississippi. Also, the students did field work in the marsh in front of the school with their teacher, Mrs. Mary Jo Barr, and with Dr. Marco Giardino, mentor of the Sesqui Project. Mrs. Barr has received a grant to build a boardwalk in the marsh, so that the students may better use this area as an outdoor classroom.

Chemistry teacher, Mr. Fred Cherota, lectured to the juniors on soil analysis, and Dr. Erwin Otvos who is the director of the Gulf Research Laboratory in Ocean Springs spoke on the geology of the Mississippi Coast. Then, directed by Dr. Marco Giardino, the students took soil samples from a field which was a former creek bed. These samples will then be analyzed during regular laboratory sessions.



Prefect John Ross (Left) and Dr. Marco Giardino (Center) listen to Brother Loyola as he explains that the field was a former creek bed.

FIRST DIG The seniors will open the first pit of the Sesqui Project on April 18 at the site of Rip's University, under the guidance of Dr. Marco Giardino.

The students will excavate each afternoon for four days. The site will be open for inspection April 22, the day of the 140th Anniversary Mass. Faculty, alumni, parents, and friends of SSC will close the pit on Saturday, April 23. Call Pat Modenbach at SSC if you wish to participate.

Brother Donnan - Continued from Page 1

As the founding President of the Greater Baton Rouge Chapter of NSFRE and a member of NSFRE's National Minority Outreach Committee, Brother Donnan has given numerous talks and workshops on fund raising throughout the country.

Brother Donnan has received numerous major awards during his educational career. The National Council for Catholic Education awarded Brother Donnan with its Recognition of Service Award in 1987 for his accomplishments in development at Catholic High School and for his contributions to Catholic school development programs throughout the United States. He was honored by the National Association of Secondary School Principals (NASSP) both for professional achievement and for professional service. He is the recipient of NCEA's Presidential Award for service on its Board of Directors, and he has received its Secondary Schools Department Awards both for service as President of the department and for his outstanding lifetime contributions to secondary education. The Diocese of Baton Rouge, Louisiana, recognized Brother Donnan with the Outstanding Catholic Achiever Award.

In 1991, he was selected as one of 250 delegates nationwide to the National Congress on Catholic Schools for the 21st Century.

Brother Donnan received a B.S.Ed. from Loyola University and a M.S.Ed. from Fordham University. His entire career has revolved around education as a school teacher, counselor and administrator.

Major Stanislaus Donor, Kent, Honored

John "Jack" Kent, a long-time friend and supporter of St. Stanislaus was among the 1993 "Best Entrepreneurs Under the Sun" inducted at the Seventh Annual National Conference of the Entrepreneur of the Year Institute for 1993. Kent, who founded Marine Shale Processors, Inc. in 1984, is the father of John Kent who graduated from SSC in 1983. In 1992, Kent pledged $500,000 to the Endowment for Excellence Campaign at St. Stanislaus.

Kent became eligible for the honor after capturing the Manufacturing Entrepreneur of the Year award for Louisiana-Texas region in competition against more than 500 nominees from the two-state area.

The annual international contest is sponsored by Ernst & Young, *Inc.* magazine, and Merrill Lynch. The induction ceremonies took place in Palm Springs, California.

In preliminary judging, the selection committee took note of Kent's patented process to utilize hazardous wastes as fuel and feedstock to manufacture environmentally-safe aggregates and recover grade one steel and limestone.

Other weighted factors included the nominee's contribution to his company's host community, to corporate support for civic and educational activities, for policies that encourage and promote professional growth among MSP's workforce, employee benefit programs, and for a corporate philosophy of "live and let live" in dealing with vendors.

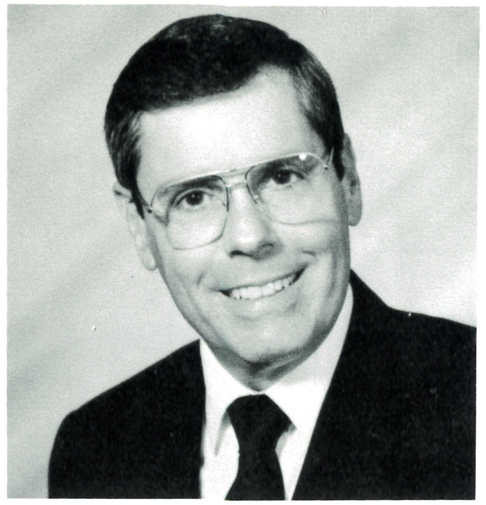
Message From The President



Brother Paul Montero, S.C.

Dear Alumni,

This past May 28th, Graduation Day, was another proud chapter in the history of your *Alma Mater* as we brought to an end our 140th school year.

In addition to awarding diplomas to the nearly one hundred graduates who joined you as members of our Alumni Association, we honored in a special way thirteen members of the Class of 1944 who had gathered to celebrate their Golden Anniversary as graduates of SSC.

The interaction among these two generations of Rockachaws following the Graduation Mass was exciting and rewarding to observe. I certainly was proud to be a part of the history they share.

Following the banquet honoring the Class of 1944, our Golden Jubilarians were shown the newly established "Alumni Room," located on the first floor of the infirmary building. When completed, the Alumni Room, financed in part through proceeds from our Annual Golf Tournament, will include various displays of memorabilia, photographs, publications, and artifacts dating back to the 1850's.

After our Jubilarians had left, I reflected on the obvious joy and excitement which our 1944 graduates had experienced during their reunion on campus. Once again I got in touch with the fact that here at St. Stanislaus we continue to offer to young men far more than an excellent education. Just as we did fifty (and more!) years ago, we afford our students many opportunities to develop into caring, committed, and faithful friends and Christians.

We graduate young men who are ready to move into their world and make a difference; men who will journey through life remembering with fondness the friends they made at SSC; men who will enjoy returning to their Alma Mater to visit with Brothers, former teachers, and classmates.

Being part of St. Stanislaus during these past eight years has been a blessing and a gift for me. I leave Stanislaus with sadness, for the students, faculty, parents, and alumni have truly captured my heart. But I leave with much gratitude for the richness, the joy, the love that have come my way here in Bay St. Louis. And I thank the Sacred Heart for allowing me to share my heart and my life with our St. Stanislaus family.

I look forward to my visits here during the coming years and to continuing the life-giving friendships begun here. Please pray for me; and be assured of my prayers for you and your loved ones.

Sincerely in the Lord of Love,

Brother Paul Montero, S.C.

Brother Paul Montero, S.C.

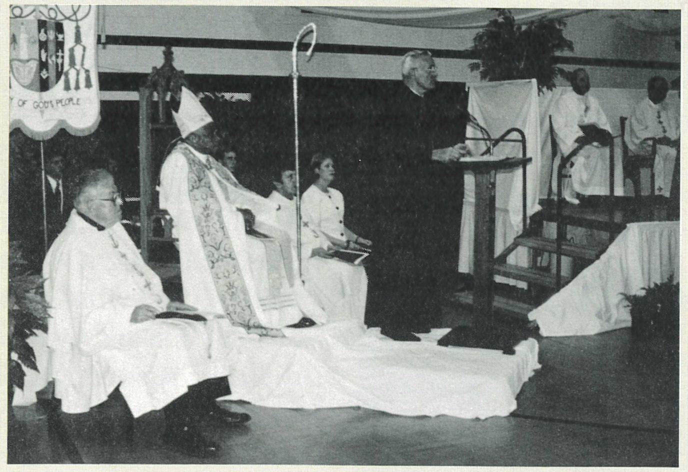
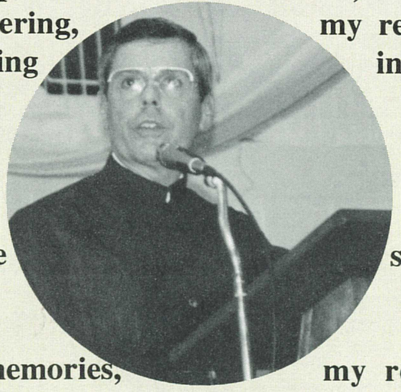
140th Anniversary Liturgy



On April 22 St. Stanislaus celebrated its 140th Anniversary with a liturgy attended by the students, parents, alumni, and friends.

In the above photograph (l-r) Monsignor Gregory Johnson; Bishop Joseph Howze, DD; Reverend Peter Mockler; Mrs. J.B. Pike, campus minister; Brother Joseph Donovan, dean of students; and Deacon Richard Henderson, religion teacher participated in the liturgy.

Most Reverend Joseph Howze, DD, bishop of the diocese of Biloxi, presided over the ceremony and Reverend James Carter, SJ '44 was the principal celebrant with other 11 concelebrating priests. The Parent Leadership Team hosted a reception in the Student Union.



Brother Paul Montero, SC, president of SSC, said during the communion meditation that, "as I prepare to leave St. Stanislaus, I have my own remembering, my reasons for celebrating in gratitude, my own beliefs. I remember the people. I thank God for the love you have shared with me and with one another.

My memories, my reasons for celebrating, my beliefs are similar to those of many other persons whose lives and hearts have been touched forever by St. Stanislaus. . . from my heart I thank you and I thank my God for you."

Brother Bernard Couvillion, SC, provincial of the Brothers of the Sacred Heart, spoke of three artifacts during his scriptural reflection. The first was a quote from a homesick student in 1858 to his mother. The second was Brother Peter Basso's self-measure of how to become a man of character: H - hard work; E -expression (how do young men express themselves verbally and physically); A - ability to "take it" (meaning the ability to take correction from adults); R - reliability; T - truthfulness (HEART). The third was the school's crest which shows a young man with the shadow of an adult behind him.

Seniors Ashton Feehan, Peter Martinez, and Drew Scafide led the liturgical procession of the 140th Anniversary Liturgy.

SSC To Get New Crosswalk

Brother Donnan Berry, SC, president of St. Stanislaus, has announced that plans are underway for the construction of an elevated walkway across Beach Boulevard to the pier. This crosswalk will be similar to the one which existed from 1947 until Hurricane Camille.

Mr. Fred Wagner is the architect for the project which is under the aegis of the SSC Board of Directors.

Noting the increased vehicular traffic on Beach Boulevard in recent years, the Board decided that it would be desirable to provide a larger measure of safety and convenience for the students and campers for access to the pier. The proposed design will incorporate the arched structures of the older buildings on campus so that the new walkway will harmonize well with its environs. It will provide easy access to the pier for both walkers and those in wheel chairs.

Recent property donations of Mr. and Mrs. Jimmy Bryan '41 and Dr. and Mrs. John Ochsner will provide major funding for the proposed walkway. Additional gifts to pay for the project are being sought.

SSC Campus Expands

The house and property at 114 Bookter Street -- across the street from the Brother Alban Dining Hall -- and a vacant lot on Union Street near Hancock, have been purchased and made a part of the school campus.

These two properties were part of the estate of the late Mr. and Mrs. Anthony J. Benigno, Sr. and were puchased from their heirs, with the assistance of Mr. Anthony J. Benigno, Jr. '54, Mr. Michael D. Haas '51, and Mrs. Susan Ritten. Mr. Benigno is one of the heirs and Mr. Haas and Mrs. Ritten are members of the SSC Board of Directors.

The lot on Union Street will be cleared and filled in and become a part of the play area. A study is presently being undertaken to determine the best use of the residence on Bookter Street.

He will serve over 1500 brothers in 28 different countries.

Brother Donnan Berry, SC

Dear Alumni and Friends,

Your alma mater is on the move and it looks as though 1995 is going to be our best year so far!

Our academic program is getting better every day, and our extraordinarily well-kept facilities keep expanding and improving. Our residency program continues to do an even better job for the 286 students who live with us and profit most from our 141 years of experience with "boyology". And Brother Pierre's cooking has done absolutely nothing to help me with my own personal Battle of the Bulge. (I have been here a year and a half and it amazes me that I have not heard one student complain about the food!) And Camp Stanislaus provides more wholesome fun in six weeks than most youngsters get during their entire childhood.

Just a cursory investigation readily shows why St. Stanislaus is so outstandingly effective: it's the people "in the trenches!" It's those who teach and prefect and nurse and clean and feed and do all the many prosaic but necessary daily things it takes to help a boy become a man of character. We have a truly talented and dedicated faculty and staff, and, what's even more important, they are experienced and they love kids. What a winning combination.

But best of all they show a kid what it means to be a person of character. We've all heard the old adage, "I can't hear what you're saying, because what you are drowns out your words!" The students here are exposed daily to worthy role models who not only tell them how to become mature, caring, value-centered adults, but they provide living examples of how it should be done.

Our parents and alumni have long been aware of all of this, so it is no wonder that the response to both the recent Alumni Annual Appeal and the Parents Annual Giving Appeal has been extraordinary. More than ever before the many alumni, parents and friends of SSC are coming forward and offering their gifts to keep the spirit and the fact of St. Stanislaus alive and thriving. As I said last month, quality is not easy to come by or to sustain; it has to be worked for and paid for.

We're working at it, and we thank you for your gifts to help us to pay for it. Without your encouragement, your moral and verbal support, and your gifts, we couldn't keep getting better all the time. You are definitely that important to the future of St. Stanislaus.

Best wishes to you and yours for a very blessed and happy 1995! Count on the prayers of all of us Brothers throughout this new year.

Sincerely in Corde Jesu,

Bro. Donn, S.C.

Brother Donnan Berry, SC

Annual Alumni Appeal

The Annual Alumni Appeal is presently almost four times greater ($25,790.00) than last year ($7,914.00). Begun again last year, the Alumni Appeal had been temporarily halted during the first two years of the Endowment for Excellence Campaign. A final appeal will be sent in early January to alumni who have not as yet participated. Thanks to the many alumni who have responded so generously. The young men at SSC, your successors, are the direct and only beneficiaries. Your contributions make a difference for them.

Parents Annual Giving Appeal

The third Parents Annual Giving Appeal ($50,900.00) to date exceeds last year's total ($35,094.00) by over $15,000. 237 parents are making this year's appeal a success. This appeal will be completed by early January. A victory letter will be sent to the parents with the final results.

his teaching career at St. Aloysius (now Brother Martin High School) in New Orleans in 1968.

He has served as pre-novitiate, novitiate, and post-novitiate director, as well as chairman of the New Orleans Province Spiritual Life and Formation Committees. He served three years on the Provincial Council before being elected provincial of the New Orleans Province in 1988. His service to the larger institute includes membership on the international committees for the revision of the Rule of Life and for the writing of the Formation Guide. He has also been a presenter in several sessions in English-speaking Africa and in the international sessions in Rome. In addition, he was part of an animation team between 1984 and 1987 which offered retreats on the spirituality of the Rule of Life to brothers in Africa, England, Australia, and the three United States provinces. He represented the New Orleans Province at the General Chapter in 1976, 1982, 1988, and 1994.

Brother Bernard will reside in Rome.

Derek Breerwood, through the generosity of his mother Mrs. Elmer Breerwood, donated Rock-A-Chaws, press clippings, and an SSC memory book from his grandfather's era -- the early 40's. Elmer was quarterback of the SSC football team in '42 when 35,000 people went to see Stanislaus play Jesuit High School.

Bernard J. Piazza donated a copy of his graduation certificate from the Back School and a Bible History book used at the Back School.

Raymond Cuevas donated a 1926 Catalogue of St. Stanislaus which outlines all the "do's and don'ts" from that time period.

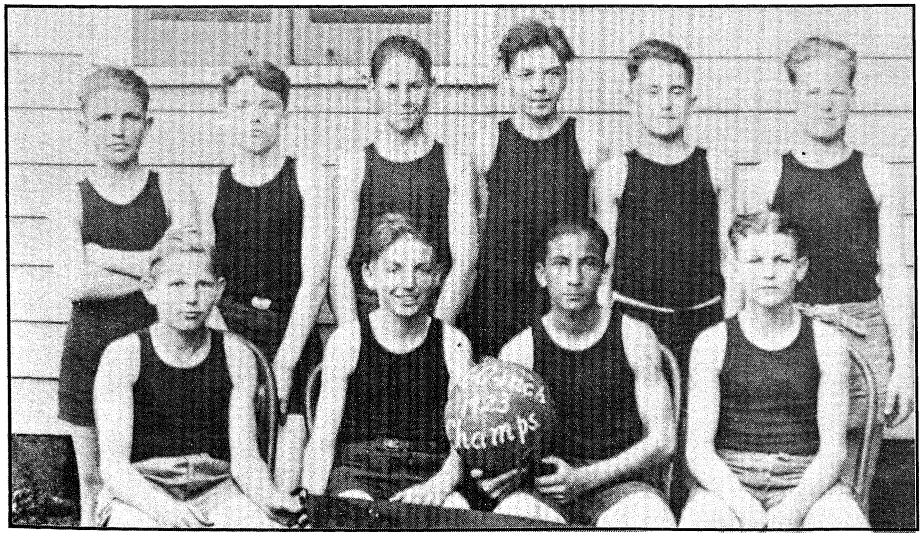
Ernest A. Daunis '47 donated copies of the Rock-a-Chaw and textbooks used at SSC for the archives. He also gave his red SSC letter sweater from the 1940's.

Peggy Gibbens donated several books from the turn of the century including Painting As A Past-time and French Painting.

Mr. and Mrs. James Bryan '41 and **Dr. and Mrs. John Ochsner** donated property they held in Abita Springs. This donation will be used to construct a crosswalk to the pier. (See related article on page 1.)

Special thanks to **an alumnus and his wife who wish to remain anonymous**, for donating property in Colorado. The lot is 60 x 112 feet tapering to 84 feet rear width. It is a quarter mile from Lake Hatcher in the Pagosa Lakes, Colorado, development. This area is 3-4 miles west of Pagosa Springs, CO or 40 miles east of Durango. The lot is valued at $4000. We shall consider offers for this lot near the Colorado ski country.

Also, the SSC Progression Corporation is anxious to sell a lot in Bay St. Louis on Dunbar Street, four blocks from the Back Bay. (Asking $10,000) If interested in either the Mississippi or Colorado properties, call Pat Modenbach at the Development Office (601) 467-9057.



A flash to the past: The 1923 SSC 60" Basketball Champions. The tradition lives on today. The Rock-a-Chaw basketball team captured the championship at the County Tournament by defeating Bay High (82-27), Pearl River (89-53) and Hancock (83-57).

SSC Grad Recognized As A Hero

Doug Talbout '55 was recognized as a New Orleans Hero during the eighth annual Role Models Awards Gala which is under the auspices of the Young Leadership Council. "Seven years ago Doug was diagnosed with cancer of the lymph system and given two years to live. He took his diagnosis literally as a challenge for survival. With dogged determination he studied the concepts of body and mind healing and committed himself to healing his negative attitudes. The rest, as they say, is history. In the last seven years, he has volunteered his time to coach, mentor and talk with newly-diagnosed cancer patients throughout Louisiana. Beginning with Orange Julius, he went on to make Lucky Dogs the success it is today." (Biography from the Celebrating New Orleans Heroes program.)

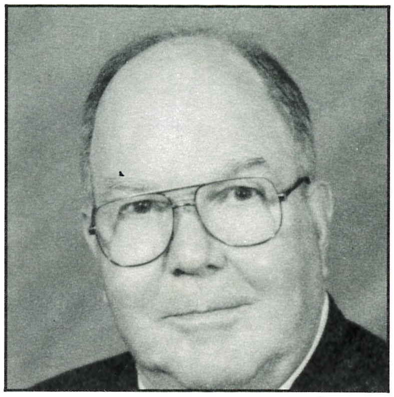
PRESIDENT'S LETTER



Dear Alumni and other friends of SSC,

On behalf of all of us here at "The College," and very especially on my own behalf, I extend to you our best wishes for a very Happy and Holy Christmas and Blessed New Year. Rest assured that as we count our blessings during this past year, you are uppermost in our minds.

It is a wonderful and often amazing thing to watch young people grow from shy, confused, and uncertain children into happy, self-confident, and well-educated adults. Many of you who read these words know it first hand: you personally experienced this awesome transformation, or you watched it take place in your sons.

We thank God who -- for 142 years -- has given us here at St. Stanislaus the mission and the means to help so many young men develop to their full potential, to become useful and contributing members of society and their church. The amazing metamorphosis which most of them undergo while here with us at St. Stanislaus makes all of the effort and hard work that we put into it well worth while.

We also thank you for helping us to achieve this great good. Without your confidence, your presence, your support, and your encouragement, it could not be done. The work of our Founder, Fr. Andre' Coindre, and the dream of our first Superior General, Brother Polycarp, would simply have withered on the vine. Instead, their vision has blossomed and prospered into the institution which today we call St. Stanislaus College Prep.

We are also grateful that things are going so well here at SSC and that the future looks so bright. Dr. Michael Ryan and our dedicated teachers and staff continue to provide the academic challenge and growth upon which our mission is built. Under the dynamic leadership of Fr. Paul Calamari, our Residency Department is fast reaching a professionalism and effectiveness only dreamed of for many years. The spiritual life of the school and residency are at an all-time high, thanks to the skillful and tireless efforts of Brother Adrian Gaudin, SC, our Campus Minister.

Thanks to Mr. Paul McCarthy and his Maintenance and Custodial staff, the grounds and buildings sparkle. Nurse Jo Burr and her devoted assistants in the Dispensary do a great job of keeping both Brothers and boarders healthy. And Brother Pierre St. Pierre, SC, and his crew continue to nourish our bodies and sustain our strength to achieve the mission.

Brother Xavier Werneth, SC, serves as the local superior of the thirty Brothers of the Sacred Heart living here at St. Stanislaus; Brother Ronald Talbot, SC, Director of Finance, makes sure we use our resources wisely and economically; and Brother Noel Lemmon, SC, keeps all of our vehicles safe and operational, while he prepares for next year's summer camp.

Mrs. Pat Modenbach, Director of Development and Public Relations, continues to spread "The Good News of St. Stanislaus" far and wide and to solicit donations to keep us going. Thanks to Mick Quinlan, Director of Admissions, prospecitve students and their parents continue to realize that Stanislaus has something special to offer them, something they can't find anywhere else.

And so, at this most sacred time of year, it is with a heart filled with joy, hope, and, above all, gratitude that I thank God, my colleagues, and you. Being President of this institution is a wonderful opportunity and an awesome responsibility. Without all of you wonderful people doing what you do so well, so generously, and so readily, it would be an impossible one.

May God bless you for loving our students so much and for serving them so well!

Gratefully in *Corde Jesu,*

Bro. Donnan, S.C.

Brother Donnan Berry, SC
President

Every day in Summer, the students are allowed, under the care of their respective prefects, to take a refreshing dip in its invigorating waters. The bottom of the Bay, for a long distance out, is shallow, sandy and even. In the usual bathing area, the water is between 3 and 5 feet deep. The wharf extends a distance of 1,000 feet into the Bay. It supports, at four different intervals, large platforms fitted with benches for the comfort of the students, who after supper during the hot months, go there for about an hour, to enjoy the cool breeze.

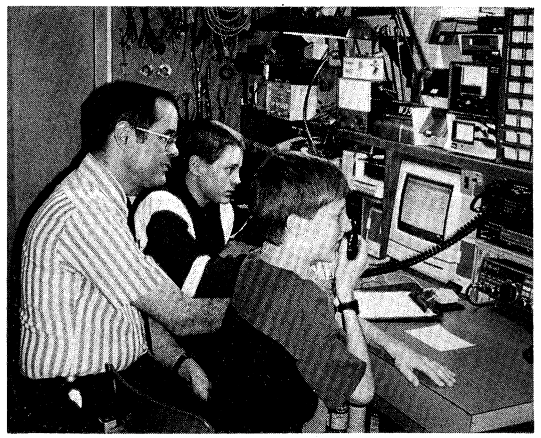
SSC Radio Club Is On The Air

CQ is the call given out by the twenty SSC students who currently have amateur radio licenses, novice through extra, when they want to talk to someone. Under the guidance of the Radio Club moderator, Brother Eduardo Baldioceda, SC, the students participated in the School Club Roundup, a week-long, on-the-air contest in February. Last year the SSC Radio Club placed second among high schools nationally and the previous two years they placed third. Results will be announced in the summer. This year the SSC Radio Club had 192 contacts from 35 states and 8 countries.



Brother Eduardo and eighth graders Blaine Griffith (left), the son of Mrs. Laura Griffith and Matthew Monti, the son of Joe Monti '70, during the School Club Roundup, an on-the-air contest.

According to Brother Eduardo, several members have followed the lead of the club station and upgraded their home stations to operate computerized VHF packet.

In addition, SSC has a packet node, so packet operators can connect in. Another option SSC Radio Club members have is to connect through Stennis to the ham radio part of the Internet to other ham operators throughout the world.

Members have attended hamfests in various cities from Mobile, AL, to Jackson, MS, to Lafayette, LA. Brother Eduardo will travel to Dayton, OH, at the end of April for the world's largest hamfest. Brother Eduardo holds an extra ham license. He recalled that in 1989 the FCC allowed the Radio Club to sign WD200IAD as a special event station to commemorate the 200th anniversary of the Constitution of the United States. The club used this call for one week and had over 1,000 contacts!

SSC Takes Part in National Duck Stamp Contest

Students of SSC art teacher Ms. Dana Bordelon, are submitting artwork for the Federal Junior Duck Stamp Conservation and Design Program. The program is designed to teach wetlands and waterfowl conservation to students through incorporating scientific and wildlife management principles into a visual arts curriculum.

Artwork is submitted by schools to the State Show. Each state's "Best of Show" design is then entered into the national competition to select the Federal Junior Duck Stamp Design. Ms. Bordelon will select entries to the State Show from her art classes.

SSC art teacher Ms. Dana Bordelon advises ninth grader PJ Dysart as he prepares his submission.

CORRECTION: We failed to mention in the January Alumni Newsletter that the Board of Directors of Camp Stanislaus approved that Camp Stanislaus give the money needed to purchase an empty lot-and-a-half on Union Street near Hancock for the use of the school. This timely and generous purchase adds almost 11,000 square feet to the playing area between the tennis courts and the Brothers' cemetery. The lot is presently being cleared and filled in by Brother Loyola.

The SSC Alumni Association gave a grant to the Mathematics Department for the purchase of twenty graphing calculators.

According to Mathematics Department Chairman, Mr. Mike Gemelli, '69, "Math classes will now be able to investigate more advanced curve-sketching techniques, as these calculators will allow us to 'see' these functions easily. Because these calculators can integrate and differentiate, the potential for practical application problems in engineering and architecture is unlimited."

Mr. Gemelli went on to say, "Thanks to the Alumni Association, we now have the tools to teach and reinforce the knowledge of a graphing calculator. This once again demonstrates SSC's commitment to the total preparation of our students for the educational challenges they will face in college."

Thriffiley Honored as Rotary Club Teacher of the Month

Mr. Jim Thriffiley, SSC physics teacher, was honored by the A.C.J. Rotary Club Teacher of the Month in January.

Alum Fondly Remembers Brother Bennett

Richard Corley, '82, fittingly expressed his memories of Brother Bennett who died November 17, 1994.

Dear Brother Donnan,

I have just read in your current edition of the Alumni Newsletter about the passing of Brother Bennett last November, and it is with deep sadness that I write you today.

I first met Brother Bennett during my senior year at SSC. In both his religion and English Literature classes, I always found him to be a continued source of inspiration for both the subject matter at hand and for life itself. In very large measure, I attribute the academic success I had during my final year at Saint Stanislaus and later at Williams College to the support I received from many people, but in particular it was Brother Bennett who wouldn't let me give up all I had worked for, nor disregard all that I had yet to accomplish. Outwardly, I remember him as a rough and tumble sort of person, both strict and easy going at the same time, but inwardly, he was a very caring man who loved being who he was and doing what he did. Being a Brother of the Sacred Heart was his life, and that was a life he lived to the fullest.

Brother Bennett Bishop was indeed a wonderful man. The 'Venerable Bede' of Saint Stanislaus had many students, and I am very honored to say that I was among them. I truly shall miss him.

Remember In Your Prayers Brother Claude Petrus, SC

Brother Claude Petrus, SC died on January 9.

Brother Claude took his first vows as a Brother of the Sacred Heart on August 15, 1928. He began his teaching career at St. Aloysius in 1930. During his career he was placed at Catholic High School, McGill, and DePaul. During his time at St. Stanislaus, Brother Claude was a teacher, librarian, and worked in maintenance. In 1970, Brother Claude retired from active duties.

Brother Canisius and Lenten Giving Fund Help Child Reach for the Stars

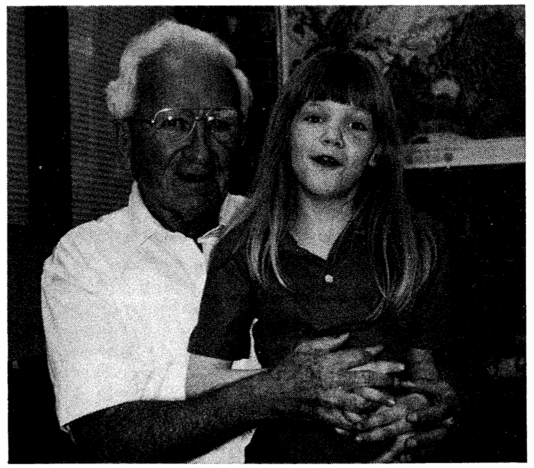
In 1988, Brother Canisius Schell was involved in a volunteer program at the Bay-Waveland Headstart Center. It was there that he met a 4-year-old autistic child named Lizzie. He was deeply moved by her and wanted to help make her life better. He asked for student volunteers to help set up a program on school day afternoons. The first year the volunteers came from Our Lady Academy. Brother Canisius and the girls attempted to break into Lizzie's silent world with games, puzzles, and music.

The following year he visited the SSC Senior Religion classes. He spoke to them about Lizzie and asked if any of them would like to help with the program. Forty-seven students volunteered and a program was set up. The students worked four afternoons a week in groups of four. Brother Leon also got into the act by building a small balance beam to help with Lizzie's coordination. A small room on the first floor was designated as "Lizzie's Room". It contained a small closet where Brother Canisius kept various objects such as balls, beanbags, stringing beads, and other items to help Lizzie with her fine-motor skills. Some of the other Brothers began suggesting and locating items to be used during Lizzie's sessions. Parents of students sent puzzles, workbooks, and even homemade items designed to help Lizzie learn to button, zip, and tie shoestrings.

A very crucial point in Lizzie's development came the year that she was to enter the school system. In order to do that, she had to be tested to see what educational level she was on. There were two options--she could be placed in the profound classroom where severely handicapped children were, or she could be put in the high functioning class. In order to get there, she had to test successfully. Lizzie was brought to the Special Ed office to begin testing and she became uncooperative and hysterical. Her mother felt that Lizzie was afraid because it had the look of a doctor's office - a place where Lizzie had frequently been and which terrified her. Her mom requested that the testing be moved to "Lizzie's Room" at SSC - a place where Lizzie felt at ease. The psychometrist who did the testing agreed to the unusual request. In an unheard of move, she allowed the SSC students who had been working with Lizzie to administer the tests under her supervision. Because of the trust and love the SSC students had developed with Lizzie, she tested successfully and was able to be placed in the higher functioning class.

> *"A procession of SSC students came to know and love the little girl who wanted so badly to be able to speak."*

Over the years the program continued, never lacking for caring volunteers. A procession of SSC students came to know and love the little girl who wanted to badly to be able to speak. In 1991 Lizzie was introduced to Dr. Teresa Callahan, a professor of Special Education at USM. Dr. Callahan introduced Lizzie to facilitated communication. It was as if a dam had burst. During the 93-94 school year she was mainstreamed into several regular ed classes at Waveland Elementary School. She was doing well but still had a lot of difficulty with behavior problems and extreme hearing sensitivity. During a conversation with Mrs. Adrienne Quinlan, a secretary at SSC, Lizzie's mother mentioned a treatment available in Houston, TX, that had a great success rate in enabling autistic children to verbalize and also improve behavior problems. The treatment took 14 days, and was expensive. After the conversation, Mrs. Quinlan went to Mr. Bill Jennings, an SSC teacher who is in charge of the Lenten Giving Fund. Upon taking a vote, the students agreed to send Lizzie and her family to Houston for the treatment.



Brother Canisius began working with Lizzie in 1988. Lizzie's mother attributes many of the successes of her daughter to the program set up by Brother Canisius.

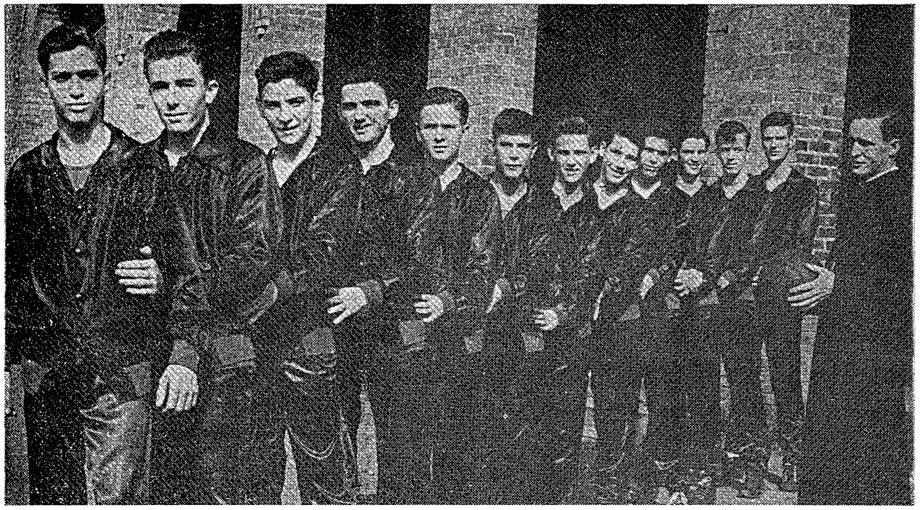
As a result of that treatment, Lizzie is now in a regular 4th grade class at Bay Middle School. She maintains an A/B average and has made honor roll each grading period. She is well-liked by her peers and is a happy young lady. She is a determined young lady and has typed in her nightly journal, "I want to be a doctor. I have the will to fight autism and be somebody special. I am God's messenger that autistic people are important too. I talk to Jesus every day and He tells me to keep praying, and I will witness Him. I am living proof of God's love."

Brother Canisius's "Project Lizzie" is also living proof of Gods' love. Now in its seventh year, the project is carried out three days a week, during the school year and through the summer by a group of seniors from Our Lady Academy. This group of girls began working with Lizzie the summer after their freshman year and have given her three years of love, laughter, and companionship. Because of their efforts, Lizzie is now playing several tunes on the piano.

Lizzie's mother sums it up, "I don't think there is a school anywhere that has taken on a project of this magnitude. When Lizzie was diagnosed at the age of two, the doctors told us that she would never function past the mental age of six. They also told us to consider putting her in residential care and getting on with our lives. That was an extremely lonely and frightening time for us. I know that God sent Brother Canisius to us. Since then, she has steadily progressed and everything has happened according to God's plan for her. Lizzie has touched so many lives and in turn, our lives have been enriched. Because of the love, the caring, and commitment to our daughter, she has been able to reach for the sky."

SSC Grabs First Division Title Since 1945

Last month the SSC Varsity Basketball team defeated D'Iberville High School to earn the Division 8-4A title. This is the first division or district title for SSC in basketball since 1945. SSC was defeated in the first round of playoffs against the defending 4-A state champs, Northeast Jones. The SSC Varsity Basketball team is coached by Jay Ladner.



Members of the 1945 varsity team are (front to back) Leon Ferrier, Pat Wilson, Joseph Nusz (Mgr.), Buddy Gulotta, Niles Sjodahl, Joseph O'Donohoe, T. Sellers Meric, Charles Johnson, Spurgeon Lachaussee, Rudy Nieto, Pat Fleming (Mgr.), and Jim Smith. Brother Adalbert, basketball coach, is holding the ball.

Jim Smith, '45 recalls that the 1945 South Mississippi State Title Match was played in Philadelphia, MS and because the town had no hotels, the players were housed with the few Catholic families in the area. When SSC won, Smith said their Catholic hosts cried as freely as the team.

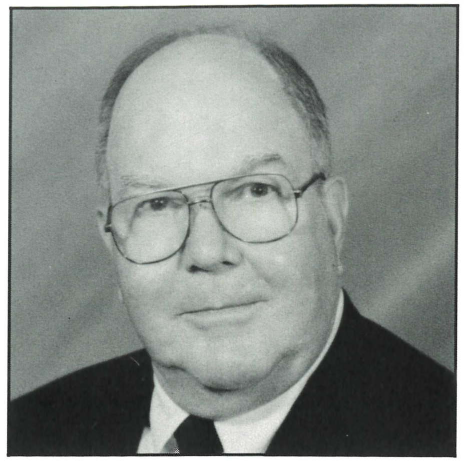
PRESIDENT'S LETTER



Dear Alumni and Friends,

When you reach my age, you are no longer surprised at how fast the months pass; you get used to it. I *would* have appreciated a little more time to ''recuperate'' from last school year and get ready for the new one, however St. Stanislaus' 142nd year is upon us!

It looks as though it's going to be our best year yet -- thanks to your enthusiasm and support. Some of the changes we have planned will become obvious as the year goes along. Others will be more subtle, but often even more important.

For one thing, we are spending a lot of money to enhance the academic program. We're adding some new teachers so that the Assistant Prefects need no longer teach, giving them the opportunity to devote their time and energies full-time to their important task of caring for our resident students. This is not a dramatic or obvious improvement, but it is truly a significant one- one which will strengthen both our academic program and our residency program. Our Board of Directors does not spend money readily - they have to be convinced. They saw this as a great step forward and readily approved the outlay of funds to bring it about. They know it will make St. Stanislaus a better place for students.

Last year we took a giant step forward to improve the benefits for our many employees who work for SSC on an hourly basis, mostly our workers in Maintenance and Food Services. We started offering them health insurance as a part of their benefit package. This year we have finally increased their hourly wages to a point which we feel is dictated by justice. It will make us more competitive in our burgeoning job skill market.

Obviously, we continue to raise our teachers salaries so that we might attract and keep effective teachers. Our teaching staff is steadily improving, and our students continue to benefit.

As I finish my first year as President of St. Stanislaus College Prep, I must confess that the job has been more demanding and challenging than I thought it would be. But when I see our students succeeding in classes, growing more self-confident, feeling good about themselves, and living out their faith, I know it's worth it.

Rest assured that all of us here at the College will continue to do our best to help SSC grow daily in ''wisdom, age, and grace.'' We take our mission statement seriously, and we want SSC to continue to be ''the school of character.'' We know that our students need us now, perhaps more than ever before. They're what we are all about.

With your continued support and encouragement we know that we will succeed. The Brothers thank God for you daily as we remember you and yours in our prayers.

Sincerely yours,

Bro. Donnan, S.C.

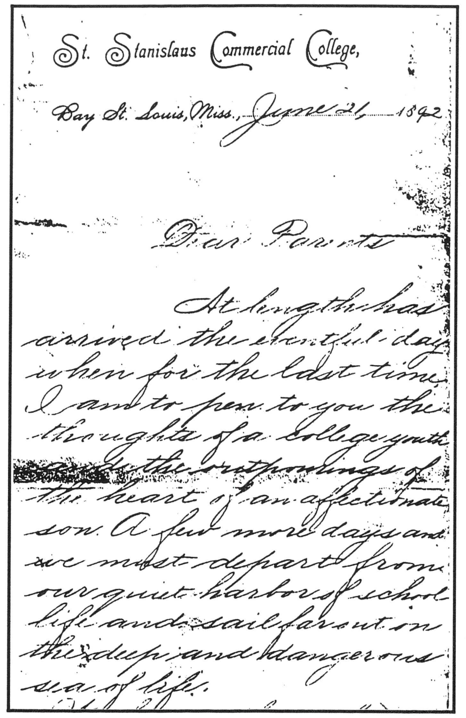
1892 Graduation Letter Home Rings True Today

James F. Terrell, Class of 1892, wrote home days before his graduation from SSC advising his parents to ''keep this letter as a memento of my college days.'' Mr. Terrell attended SSC when the school was a Commercial College. James' grandson, Joe Terrell from Mobile, had kept the letter. Recently, Gordon, Joe's brother, donated a copy of the letter to the SSC Archives Room. Joe and Gordon were both educated at St. Aloyisius in New Orleans. Seven grandchildren and three great-grandchildren of James have been educated by the Brothers of the Sacred Heart.



St. Stanislaus Commercial College,
Bay St. Louis, Miss., June 21, 1892

Dear Parents

At length has arrived the eventful day when for the last time I am to pen to you the thoughts of a college youth and the outpourings of the heart of an affectionate son. A few more days and we must depart from our quiet harbor of school life and sail far out in the deep and dangerous sea of life.

Excerpts from the original letter:

''We have not only received an education that qualifies us for business, but our noble professors have instilled into our minds that moral conviction, and respect for religion which is the very essence of ones character and which is so instrumental in effecting the destiny of an individual.

We consider ourselves fortunate in having received an education in an institution which has sent forth scores of young men that have made their mark in the world...

It has been the sole aim of the dear brothers to teach us how to navigate ourselves in this dangerous sea. To them we owe a deep debt of gratitude that can never be canceled.''

Brother Felician Fourier died March 17, 1995, and was buried at SSC in the Brothers cemetery. Br. Donnan Berry, friend of Br. Felician and president of SSC, remembered Br. Felician as a former SSC president, as a Superintendant of Catholic Schools and member and president of the Louisiana State Board of Education. But SSC alumni will appreciate with a smile one fond remembrance:

''Through his ingenuity, he was instrumental in ridding the Stanislaus football field of those pesky rock-a-chaws with which St. Stanislaus has had a love-hate relationship over the years. In the days before weed-killers were effective and inexpensive, he and Brother Philip rigged up a large roller with old blankets which they dragged up and down the football field until they were literally covered with rock-a-chaws. It did the job.''

Two Brothers From India Coming To St. Stanislaus

Brother Arogyasamy Divinanathan, SHJ, and Brother Swaminathan Xavier, SHJ, will be coming to St. Stanislaus this summer to live with the local community of brothers for the 1995-96 school year. These two brothers are from southern India where they belong to a 150-member congregation of brothers also known as Brothers of the Sacred Heart. They use the initials SHJ for the Sacred Heart of Jesus. Brothers Dvinanathan and Xavier are participating in a two-year collaboration program between their congregation and the New Orleans Province of the Brothers of the Sacred Heart that have conducted St. Stanislaus for the past 141 years, an international congregation founded in France that uses the initials SC for Sacré Coeur.

Brother Divinanathan, 37 years old, made his first profession in 1982 and his final vows in 1988. He holds a M.A. degree in Theology. His experience includes Technical School Manager, Adult Education Supervisor, secretary to the Bishop Guntur for nine years, House Procurator, and administrator of the Institute of Graphic Arts at Palaymkottai in southern India. Brother Xavier will be 35 this month. His first vows were in 1978 and his final profession in 1984. He holds bachelor's degrees in Communication and Education. The specific duties of these two brothers at St. Stanislaus will be worked out with Dr. Michael Ryan, principal, and Brother Xavier Werneth, local superior, shortly after their arrival in Bay St. Louis.

Tamil, an ancient language in India spoken mainly in the southern state of Tamil Nadu, is the first language of each of these two brothers. English, one of the official languages of India along with Hindi, is a second language to them. Their congregation of brothers, founded 93 years ago in India, is dedicated to bringing the Good News of the Gospel to the poor through evangelization and education. The brothers in India work mainly in Catholic schools and orphanages in the states of Tamil Nadu, Kerala, Andhra, and Karnataka. The population of India is over 900 million people, but fewer than 1% are Catholic in a country where the Hinduism is the predominant religion.

The purpose of the collaborative project is to help the two congregations know and understand one another's mission and charism better by getting to know and live with members of the other congregation in order to share spiritual and cultural values. The coming of the two brothers to St. Stanislaus is part of an overall six-year agreement renewed in Rome last September between the Brothers of the Sacred Heart of Jesus (SHJ) and the Brothers of the Sacred Heart (SC). More specifically it is part of a two-year agreement between the Province of New Orleans and the brothers in India.

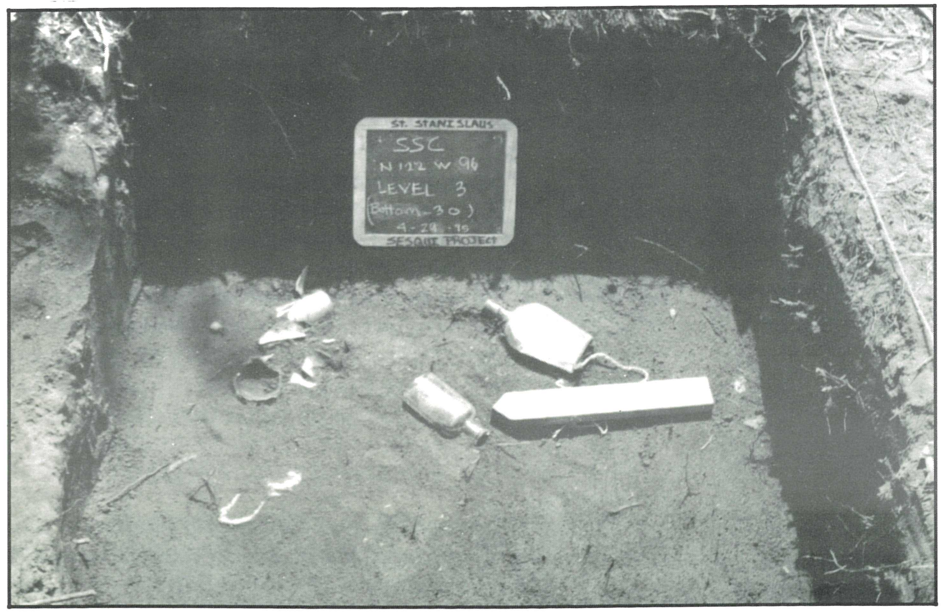
During the six week Lenten Giving Drive sponsored by the Student Council, the students raised over $9,000.00 through raffles, auctions and read-a-thons. Mr. Bill Jennings, Student Council moderator, said that the Council decided the bulk of the money will be sent to the St. Anne Mission on the Navajo Indian Reservation in Arizona where Br. John Hotstream, '55, is stationed. About a quarter of the fund will be sent to the Brothers of the Sacred Heart African Mission.

SESQUI PROJECT

Second Dig of the Sesqui Project yields Artifacts



Seniors excavating during the Second Dig of the Sesqui Project opened four pits. Pit Four sites yielded substantial artifacts including turn of the century bottles pictured above. The Sesqui Project is a ten year experiment in the social sciences which integrates archaeology, anthropology, history, geography, and political science in the curriculum. Due to the historic importance and significant antiquity of the school, the project emphasizes history, archaeology and geography through hands-on research and data collection from scientific archaeological excavations on the school's ground.
